Safe harbor

Certain statements contained in this presentation constitute forward-looking statements. These statements may include, without limitation, statements concerning future results of operations, the impact of regulatory initiatives on KPN's operations, its and its joint ventures' share of new and existing markets, general industry and macro-economic trends and KPN's performance relative thereto, and statements preceded by, followed by or including the words "believes", "expects", "anticipates" or similar expressions. These forward-looking statements rely on a number of assumptions concerning future events and are subject to uncertainties and other factors, many of which are outside our control that could cause actual results to differ materially from such statements. A number of these factors are described (not exhaustively) in the 2007 Annual Report and Form 20-F.

All figures in this presentation are unaudited and based on IFRS. This presentation contains a number of non-GAAP figures, such as EBITDA and free cash flow. These non-GAAP figures should not be viewed as a substitute for KPN's GAAP figures.

All market share information in this presentation is based on management estimates based on externally available information, unless indicated otherwise.

Disclaimer

We define EBITDA as operating result before depreciation and impairments of PP&E and amortization and impairments of intangible assets. Note that our definition of EBITDA deviates from the literal definition of earnings before interest, taxes, depreciation and amortization and should not be considered in isolation or as a substitute for analyses of the results as reported under IFRS. In all cases, a reconciliation of EBITDA and the nearest GAAP measure (operating result) is provided. In the net debt/EBITDA ratio, we define EBITDA as a 12 month rolling average excluding book gains and restructuring costs, both over EUR 20m. For 2008 and subsequent years, free cash flow is defined as cash flow from operating activities plus proceeds from real estate, minus capital expenditures (Capex), being expenditures on PP&E and software, and excluding tax recapture at E-Plus.
